

After Purchase Steps – GUIDE

RadarsHub

Prerequisites:

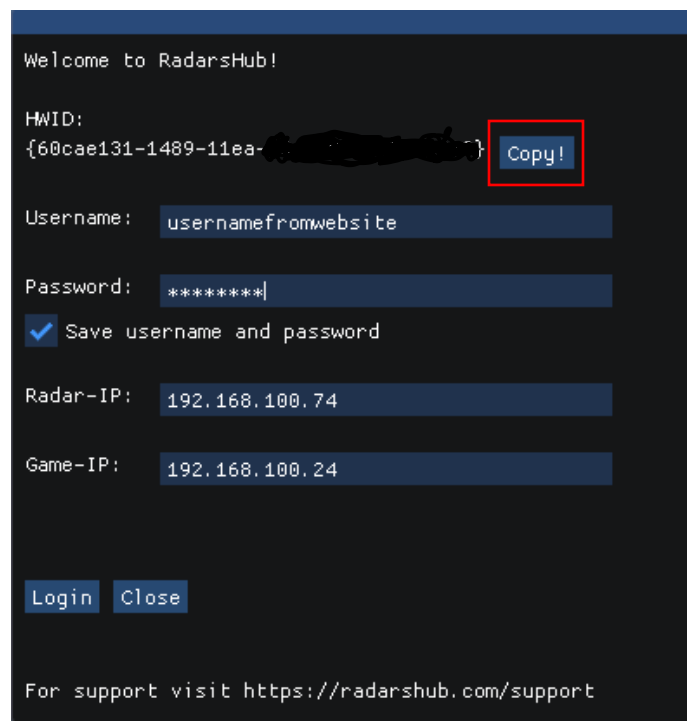

- An active purchase to any of our EFT Radar offers.
- Download Radar from “My Account” section on website.
(<http://radarshub.com/my-account/downloads/>)

Steps to follow when you have completed your purchase.

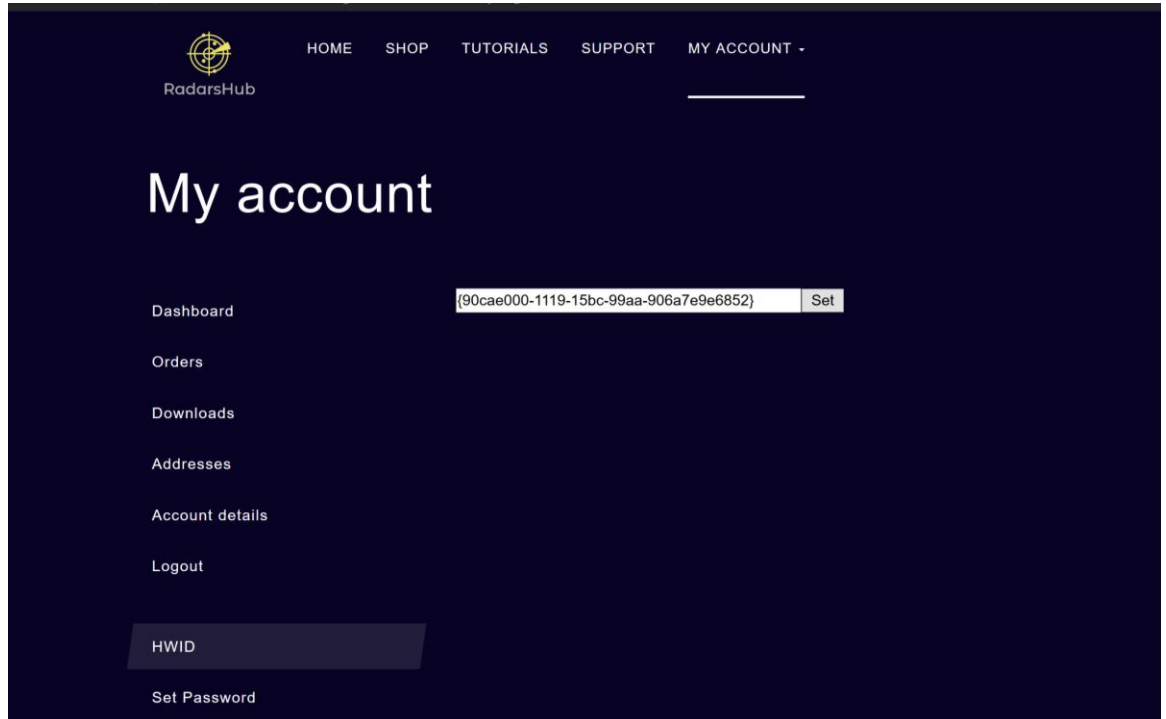

1. Follow every step of our VPN Setup guide.

<http://radarshub.com/wp-content/uploads/2020/04/Tutorial-VPN.pdf>

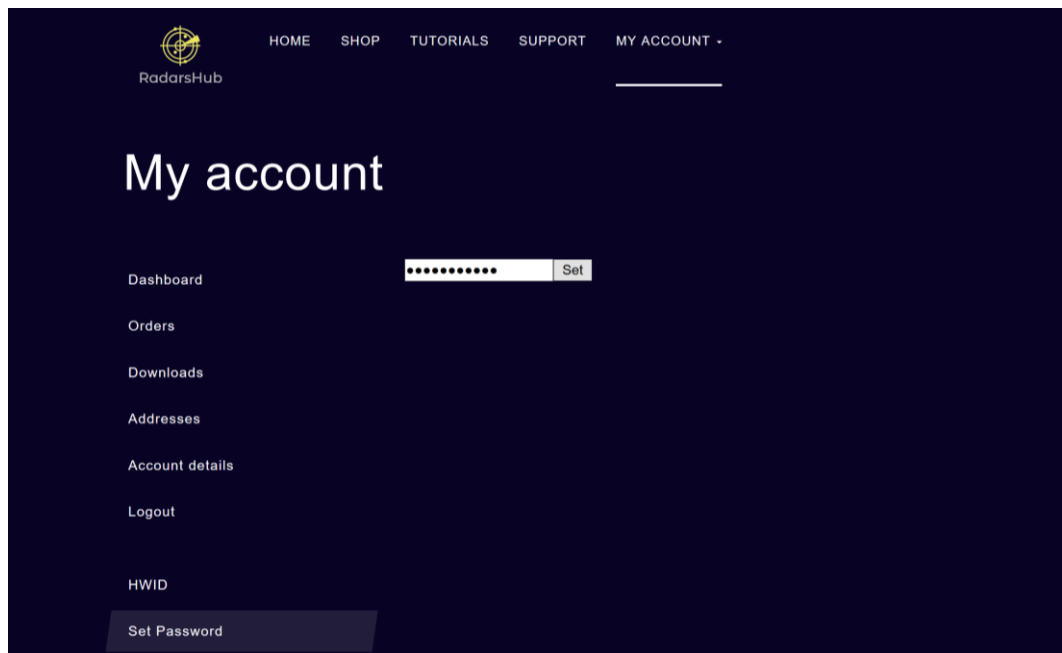

2. Download and extract EFT Radar.
3. Run EFT RadarsHub.exe (Should only be run on 2nd PC, do not try to run it on game PC it could lead you to an account ban)
4. Copy your “HWID” showed on Login GUI. Press button “Copy!”.

5. Go to: <http://radarshub.com/my-account/hwid/> and paste the HWID you have copied, then press “Set” (**HWID can be update every 24 hours).

6. Set Radars password at: <https://radarshub.com/my-account/setpass/> and click "Set".

7. Run the Radar.
8. Set you username (same as website) and password (you set on previous step)

Game-IP : IP address from your VPN connection **can be obtained on cmd by running “ipconfig” and check the IPv4 address of your PPP adapter on Game PC

```
PPP adapter pc2:

Example:

Welcome to RadarsHub!

HWID: {60cae131-1489-11ea- [REDACTED] }

Username:

Password:

Save username and password

Radar-IP:

Game-IP:

For support visit <https://radarshub.com/support>

9. Press Login

10. Enjoy!

*Radar should be run before joining a raid as PMC or SCAV (does not work with offline raids).

*You do not need to restart the radar for every game just join a new raid and it will automatically restart.

*If for any reason radar closes (usually lost network connection) you will need to rejoin the raid running the radar before joining.

*Radar can be run under WIFI but ethernet connection is recommended.
