

Items Highlight – GUIDE

RadarsHub

Steps to follow to add an item to highlight.

1. Open items.json located on Radar folder(you can use notepad or any json text editor).
2. Go to the end of the document and copy a block of code.

```
"print": "n",
"r": 34,
"g": 40,
"b": 222
},
"5e2af4d286f7746d4159f07a": {
"print": "n",
"r": 34,
"g": 40,
"b": 222
},
"5e2af4a786f7746d3f3c3400": {
"print": "n",
"r": 34,
"g": 40,
"b": 222
},
"573476f124597737e04bf328": {
"print": "n",
"r": 34,
"g": 40,
"b": 222
}
}
}

Ln 1, Col 1 100% Windows (CRLF) UTF-8
```

3. Add a comma at the end of the previous block } “,” and paste it. (Always make sure that last block doesn't have a comma at the end.)

```
},
"5e2af4d286f7746d4159f07a":{
  "name":"Aramid Fab",
  "print":"n",
  "r":34,
  "g":40,
  "b":222
},
"5e2af4a786f7746d3f3c3400":{
  "name":"Ripstop Fab",
  "print":"n",
  "r":34,
  "g":40,
  "b":222
},
"573476f124597737e04bf328":{
  "name":"Wilston",
  "print":"n",
  "r":34,
  "g":40,
  "b":222
},
{"573476f124597737e04bf328":{
  "name":"Wilston",
  "print":"n",
  "r":34,
  "g":40,
  "b":222
}
}
```

4. Replace all the information to your preference
5. First line is your item id (you can get ID's on <https://projectcenturion.com/tarkovsearch>)
6. Replace name with any name you want the item to show on the Radar.
7. Print can be set to "n" or "y" if it is enabled will print the items on cmd until they are picked up.
8. Last options determine the color of the text to show in game. You can generate your RGB color code at: https://www.rapidtables.com/web/color/RGB_Color.html

**Default configuration displays items which cost is from 100k+ and some quest items to avoid having to much stuff on your screen.

**If you are having issues finding the ID of an item open a support ticket with the item name and we will send it to you.
